

CONTEMPLATIVE  
END-OF-LIFE  
PROJECT

**Contemplative Care Hospice Committee:**

**Mission:**

Honoring the sacredness of living, dying and grieving, we offer compassionate end of life care and education, rooted in contemplative practice.

**Vision:**

A culture where death and grieving are embraced as a natural part of life.

**Values:**

1. **Contemplative Practice:** Work informed by our own individual contemplative/spiritual practice.
2. **Compassionate Action:** Action and speech grounded in the motivation to benefit others, guided by the needs, beliefs and values of those we serve.
3. **Reflection:** Engaging in personal and team reflection regarding the care of self and others.
4. **Mutual Respect:** Recognizing each individual as fundamentally whole, we honor our unique sources of wisdom, strength, meaning and hope.
5. **Accountability:** Responsible for our own spiritual, emotional and professional well-being and development.
6. **Precision:** Aspiring to an ideal of impeccability in care delivery and in all aspects of our work.
7. **Non-Judgmental Awareness:** Kindness and acceptance of ourselves and others, helping to create an environment that is open, relaxed and spacious.
8. **Mindful Listening:** Deep listening and suspending assumptions to ensure patient and family centered care and harmony among team members.
9. **Stewardship:** Mindful awareness of our use of resources and our care of the natural environment.
10. **Collaboration:** Engaging in community collaborations; offering contemplative education, resources and care, and contributing to the broader field of end-of-life care.
